

New Centre of the Universe

The Saints

You're the latest high fashion magazine
always hanging around trying to cause a scene
& oh so perfect in every little thing you do
I don't like the games you are playing
& you can't keep saying you just don't understand
Surround yourself with the best in life
you aren't wrong now but you ain't never been right
& don't ask questions unless it gets something for you
it's untrue....
I don't like the games you are playing
& you can't keep saying you just don't understand
