

No Time

The Saints

She can be a rich babe or she can be poor
be entertaining or be a bore
drive a mini cooper or caddilac
But I gotta tell ya there is no turning back
'cause I got No Time
I got no time for messing around
You can consider
you can make you stand
you can take your little lover by the hand
you can run around jump up & down
but you don't get me I won't be your clown
I got no time etc etc....
Hey baby there is a brand new sound
called people living underground
It's a story about raising hell
It's my life I know so well
& there ain't a thing that you can do
You can laugh you can cry
you can live your life & then you die
walk around with your hand in the air
but you talk like that you don't get nowhere
