

## Orstralia

## The Saints

I don't live this life for me  
in orstralia land so free  
everyone lazing in the sun  
nobody cares so let's have fun  
We got no problems got no war  
& you don't need your brain no more  
No sir  
Orstralia goes in once again  
we must remeber all our friends  
& to make sure always  
that we support the CIA  
We got no problems got no war  
& you don't need your brain no more  
No sir  
Hang your washing on the line  
it's Ok the weather's fine  
your hubby goes out commits no crime  
he always gets to work on time
