

Private Affair

The Saints

You say that you got the answers
you heard them all on the telephone
& now you're telling everybody
a major coup in the business zone
We got new thoughts new ideas it's all so groovey
it's just a shame that we have seen the same old movies
So you think that you got a first in fashion
new uniforms we all look the same
A new vogue for the now generation
a new profit in the same old game
We got new thoughts etc etc...
& you think you can run & hide what you've done
don't you know no one cares after the first million
