

Revolution In My Life

The Saints

I'm pawning my blues
I've got my walking shoes
no looking over my shoulder
I'm heading off in a motor
I'm dammed if I do
& I'm dammed if I don't
I'll get my head out of moth balls
I'll clean out the closet
I've been looking for a clue
now I know what to do
I've been waiting for sometime
you can have yours I want to.....
Savour my time without reason or rhyme
I'm going down to the basement
I left something down there
It is not in my mind
it is following me around
like a faithful old bloodhound
might come & undo me
I've been looking for a clue
now I know what to do
I've been waiting for sometime
you can have yours I want a.....
Revolution in my life
I think that now is the time...
