

Simple Love

The Saints

I'm talking but I can see
there is no one in front
my eyes can't deny
I'm staring at an empty sky
Listen to what I say
take a look at the things that I've done
I don't need anyone
& you don't come around
& love it lies on the ground
Midnight in the lepers home
all the creatures they start to roam
little girls in uniform
are talking on the telephone
to some one from the twilight zone
& your simple love will always save me
while the world around me is going crazy
So listen to what I say
take a look at the things that I've done
I don't need anyone
& you don't come around
& love it lies on the ground
