

Any Other Day

The Samples

I came back down today,
Saw the stars up on the wall.
To me it looked just like any other day.
Now you're gone,
I watched you drift into the clouds.
To me it looked just like any other day.
And I feel you now, like all the other days;
Watch them drift into the past, behind us now.
All but gone away and I hear you now,
Like all the other days.
I feel you now, in all other ways.
