

Dinosaur Bones

The Samples

From dinosaur bones
to telephones
they call across the country
to say they're home
It's something I read
that they were dead
a thousand million years
still stuck in my head

like dinosaur bones
like dinosaur bones

I saw my face
in a fossilized rock
did someone stop the sun
did someone forget to set the clock

like dinosaur bones
like dinosaur bones

With a shovel in my hand
I'm gonna last long
I'm gonna find the secret
and then I'll find out just what went wrong

from dinosaurs bones
from dinosaurs bones
from dinosaurs bones
from dinosaurs bones
