

Everytime

The Samples

I'm not going home
The same way I came
But I'll see you tomorrow
On another brand new day

Remember the beach?
Remember the cold, cold sea
That washed over us,
and washed over you and me

Everytime, over you and me
Everytime, over you and me

The summer is fast
When nobody knows
The long stretch of highways
And how far they go

Sometimes I'm crazy
From waiting so long
To make it so perfect
To fix what was wrong

Everytime, over you and me
Everytime, over you and me

As darkness falls on me
Like the cold use of words
And out there I can see
The flight of ocean birds
But never asking why
I wonder where they fly

I'm not going back
The same way I came
But I'll see you tomorrow
On another brand new day

Everytime, over you and me
Everytime, over you and me
