

Going Through Changes

The Samples

Somewhere in the sky
There is a star named after you;
Named after all the changes
That we've been going through.

Somewhere in my heart
There's a scar that's left from you;
It's healing there so slowly.
It's the most that I can do.

We're going through changes.
We're going through changes.

Tear yourself apart,
Keep your chin up high.
The only things that matter
Will always make you cry.

Another simple change
To take my mind away,
Take it to the river
And let it wash away.

We're going through changes.
We're going through changes.

How funny this is to be alone, so long.
Making steps to get me farther.
The light ahead is just a cool, sweet, song;
It plays to me when things get harder.

We're going through changes,
A million miles out there.
I think I see your face
Shining down from Heaven,
In its state of grace.

Rock me on the water,
Kiss me in the sun.
Every brand new morning
Changes what's been done.

We're going through changes.
We're going through changes.

Somewhere in the sky
There is a star named after you;
Named after all the changes
That we've been going through.

Somewhere in my heart
There's a scar that's left from you;
It's healing there so slowly.
It's the most that I can do.

We're going through changes.
We're going through changes.
