I Remember Dying

The Samples

If you meet me by the river I'll tell you what's forever If you hold me there forever I remember dying I remember dying But as I drift to sleep When I just can't yet Twenty thousand sheep Some I will forget Looking up as if I was still awake Looking up as if You were still If you meet me by the river I'll tell you what's forever I remember dying 'Cause I remember dying By the river By the river 'Cause I remember dying
