

## Stone Tears

### The Samples

when it was dark above  
the ground heat from below was all they found  
standing here for all these years  
if a statue could shed stone tears

why they fight no one knows  
they're all too young long time ago  
standing here for all these years  
if a statue could shed stone tears

peace by day bullets by night  
their ancient walls protect them now

no one feels  
the heat from the earth  
their minds are at war  
feet full of nerves  
and soldiers stare  
at the figures so tall  
born into war  
if a statue could shed stone tears

peace by day bullets by night  
their ancient walls protect them now  
their ancient walls  
their ancient walls  
their ancient walls  
if a statue could shed stone tears
