## **The Last Drag**

**The Samples** 

Can you look me straight in my eyes? And tell me love is forgiven Beneath it all she cries That what's not safe is hidden

You know what's wrong now You can't deny this

All the pretty horses roam and the morning roosters crowing All the final seeds have grown and the summer wind is blowing You know what's wrong now You can't deny this

Another day fades away Into the midwestern haze A duster plane flies away Over pastures of cattle

You know what's wrong now You can't deny this

Can you look me straight in my eyes? And tell me love is forgiven
