

Faster

The Saturdays

I turn around and feel the sun in my face
Bare foot in the grass standing next to you
I feel so right

All of the shade of ours memory
My past, you and I
All the way but through
I feel so alive

I was afraid
I was scared to fall
I can't believe that I almost lost it all

So I am standing here locked to you
I realise that I need you now
To make my heart beat fast
You're the only one

And I'm so sorry that I'm such a fool
Baby I know that I need you now
You are the only one

Who makes my heart beat
Faster faster faster faster
You make my heart beat
Faster faster faster faster
Baby you make my heart beat
Faster faster faster faster
You make my heart beat
Faster faster faster faster

I used to think about destiny
My way left or right
But boy I was running in circles

And now you're standing in front of me
Hands down, you and I
This time from so on
I won't let you go

I was afraid
I was scared to fall
Running from love and I almost lost it all

So I am standing here locked to you
I realise that I need you now
To make my heart beat fast
You're the only one

And I'm so sorry that I'm such a fool
Baby I know that I need you now
You are the only one

Who makes my heart beat
Faster faster faster faster
Baby you make my heart beat
Faster faster faster faster

Baby you make my heart beat
Faster faster faster faster
You make my heart beat
Faster faster faster faster

So baby let's hold on
So baby let time goes
You are the only one
And I almost lost it all

So I am standing here locked to you
Realise that I need you now
To make my heart beat fast
You're the only one

And I'm so sorry that I'm such a fool
(I'm sorry, I'm sorry, I am....)
Baby I know that I need you now
You are the only one

Oh! You make my heart beat
Faster faster faster faster
You make my heart beat
Faster faster faster faster
Baby you make my heart beat
Faster faster faster faster
You make my heart beat
Faster faster faster faster

Oh! You make my heart beat
Faster faster faster faster
You make my heart beat
Faster faster faster faster
Baby you make my heart beat
Faster faster faster faster

You are the only one
Who makes my heart beat
Faster faster faster faster
