

# Promise Me

The Saturdays

We partyin'  
(We partyin')

So here we are again  
I'm almost giving in  
I'm over-listening about  
Who you with or where you've been

I got drunk with my friends  
A list from one to ten  
Are you the man that I need, I need? (No)

If I was doing this  
Would you put up with this?  
Do what you're mama said  
Love or leave alone  
I'm gone  
Cos all you ever do

You promise me me me the the the world  
You promise never to let down a girl  
But now I know  
It's time to go

Tonight I'm gonna go  
And party party go  
Without you  
I'm gonna go  
And party party go  
Without you

You womanizing games  
Although you've say you've changed (No)  
I guess I always be your option not priority

The best you never have  
One day you'll wish me back  
There won't be no one like me, me (No)

If I was doing this  
Would you put up with this?  
Do what you're mama said  
Love or leave alone  
I'm gone  
Cos all you ever do

You promise me me me the the the world  
You promise never to let down a girl  
But now I know  
It's time to go

Tonight I'm gonna go  
And party party go  
Without you  
I'm gonna go  
And party party go  
Without you

Promise this  
Promise that  
But you won't get me back  
You won't find me home alone

Promise this  
Promise that  
But you won't get me back  
Someone will love what you don't

You promise me me me the the the world  
You promise never to let down a girl  
But now I know  
It's time to go

Tonight I'm gonna go  
And party party go (I'm gone without you, yeah)  
Without you  
I'm gonna go  
And party party go  
Without you
