

# Letter From Louise

The Saw Doctors

INTRO (4 times)

VERSE 1

I got a letter from Louise  
she says that things are getting better  
Theres more life on the streets  
since the calling of the ceasefire  
People are going out more  
all the pubs are jumping  
Every one is trying  
and theyre hopeful for the future

CHORUS

And the guns are locked away now  
please God, I dont care whose God  
I hope theyre locked away forever

VERSE 2

She says shes keeping busy  
and theres loads of things for doing  
Shes moved into a new house  
and times just flying by  
She says I should come up again  
maybe for the weekend  
she says theyre throwing a party  
that'll last beyond the dawn

CHORUS

VERSE 3

Halloween is on the way she says  
she writes about the harvest moon  
She says it will be lucky  
with its feeling of re-birth  
And i'm going up to see her  
for the first time since the ceasefire  
I'll pack my melodies and poetry  
and place them in her arms

CHORUS

END
