

## Still The Only One

The Saw Doctors

all of the fighting is over  
all of the battles are won  
all of the words have been spoken  
and you are still the only one

all of the heavens have opened  
all of the rivers are run  
all of the dams have been broken  
you are still the only one  
the only one, the only one  
you are still the only one

and all of the time we have taken  
all of the joy and the fun  
all of the years, the tears and the fears  
and you are still the only one

although the winter storm still rages  
there's a new dawn just begun  
full of hope and new courageous  
and you are still the only one  
the only one, the only one  
you are still the only one  
the only one, the only one  
you are still the only one
