

Wake Up Sleeping

The Saw Doctors

I've got loads and loads of patience
And I'm just as proud as you
If it goes until I'm dead and gone
I won't come running on after you
But if you enjoy remembering
When you were my best friend
I'd really love to wake up sleeping
In your arms again

There was kids outside the window
On their first day back at school
The morning after our first night
Me and you alone
On the second of September
I knew I'd found a friend
I'd really love to wake up sleeping
In your arms again

I've never been this lonely
And there's nowhere I can turn
But there must be strength in loneliness
And lessons to be learnt
You broke my heart in smithereens
I swear it will not mend
I'd really love to wake up sleeping
In your arms again
