

# You Got Me On The Run

The Saw Doctors

just happened one day at rehearsal in Claregalway.  
Anyone who's ever been infatuated by a stranger will know what  
it's about

You don't have to look  
You know that i will first  
I stood beside you  
in the chip  
I was dyin with the thirst  
And maybe I'd step forward  
If the worst came  
To the worst and say that

You got me on the run  
All I want in the whole  
wide world is for us  
to have some fun  
You got me on thr run

I bet you don't remember  
The first time that we met  
It was summer '88  
Did you think that I'd forget  
You were walking  
In the August rain  
With your hair all getting wet

Oh You got me on the run

I wouldn't ask you  
To lie or to steal  
To worship or serve me  
To crawl or to kneel  
I'd just love to hold you  
Like I do in my dreams  
I'd just ask you to be  
My girl  
Oh and you got me.....
