

Sell Your Head

The Scabs

When I see your head I see money
I see a whole lot of money to be made
When I see your head I see the sun shining
On a million little people drinking lemonade

Sell your head sell your head sell your head
And make some money
Sell your head you could be rich rich rich
Sell your head and move out on the ocean
Sell your head and get right out of the sticks

When I see your head I see tigers
I see tigers in the jungle dancing in the trees
When I see your head I see California
I see coconuts and reindeer and honeybees

Sell your head sell your head sell your head
And make some money
Sell your head you could be rich rich rich
Sell your head and move out on the ocean
Sell your head and you won't have to bitch bitch bitch

You always worry way too much
You're always trying to do your best
Why don't you take a load off
And give your shoulders a rest
And sell your head

When I see your head I see a rainbow
A see a big fat rainbow and a pot of gold
When I see your head I see sun shining
Cruising down the highway in a winebago

Sell your head sell your head sell your head
And make some money
