

## C'mon

### The Screaming Jets

I watch my TV screen  
Life flashing before me  
So tell me what does that mean?  
And why does it bore me?

Come on, let me show you how to do it

I hear the radio and the songs they play  
Makin' my stomach turn  
I just want to hear some rock 'n' roll  
I watch my radio burn

Come on, let me show you how to do it  
Come on, let me show you how to do it

I see the plastic people leading plastic lives  
Substitute child, disposable wife  
Follow your TV, it is your guide  
The family cries when the TV dies

Come on, let me show you how to do it  
Come on, let me show you how to do it
