

No Point

The Screaming Jets

I won't say no more about what we're talking 'bout
I won't say another word
All my dreams that I try and tell you 'bout
You don't understand a word

All the time and all the bridges over
Water through our hearts and minds
Now I see that all we had was nothing
When all the time and all the lies so I tell you now

I won't say no more about what we're talking 'bout
I won't say another word
All my dreams that I try and tell you 'bout
You don't understand a word

You and I and others, we have been there
We've hit the bottom and not the top
So who would have thought
That all we had had fallen

When all the dreams I have, I'm goin' up so I tell you know
As you sit there smiling
Not a thing can make me see that you have changed
Break away from death's road

We had dreams about that fame and fortune
Said I'm gonna make it and be a star
All of our names remembered by the people
I should have known that we could never go that far
