

# Give the Love Around

## The Script

To your brother, to your sister, to your misses, to your mister.  
To your friends, to your foes, give the love around and back around it  
Goes.

It all comes from the top and it spreads right round  
Treat a man wrong he's gonna pass it on down  
To the next in line, who's probably his wife bringing up his kids  
Now watching mamma cry  
And they pick it up, cause they learn everything  
Life has a funny way of going in a ring,  
End up growing up in trouble with the law  
Standing in the cuffs that the father once wore  
Now it seems that every brand new generation  
Have all been growing up with cracks in the foundation  
Their trying to fill the holes of a whole damn nation  
That's lost it's trust (that's lost it's trust)  
We gotta change before the train leaves the station and realize the  
Revolution in a revelation it takes blood, sweat, tears, innovation It  
Starts with us, it starts with us.

Yeah, stuffs like, give the love to your brother,  
Give the love to your sister,  
Give the love to your misses,  
Love to your mister  
Give the love to your friends,  
Love to your foes,  
Give the love around and back around it goes (2x)

Round it goes, round it goes, round it goes goes goes  
Give the love around and back around it goes  
Oh we're all just folks working in a wheel  
Spinning all around life's cruel battlefield  
Draw circles in the sand on a rainy day,  
Watch it wash away I bet it shows up on a sunny beach a thousand miles away  
Flutter from a butterfly forms a storm  
Over half a million people die Oh we don't care because we're all  
Desensitized

We don't realize we're putting all this shit before our children's eyes  
Now every brand new generation  
Have all been growing up with cracks in their foundation  
We're tryna fill a holes of a whole damn nation  
That's lost it's trust (that lost it's trust)  
We gotta change before the train leaves the station  
And realize the revolution in a revelation  
It takes blood, sweat, tears, innovation It starts with us, it starts with  
Us.

Yeah, stuffs like, give the love to your brother,  
Give the love to your sister,

Give the love around and back around it goes (around it goes)

Love to your friends (around it goes)  
To your folks (around it goes)  
Give the love around, back around it goes See the thing about  
Karma is she loves a bit of drama, yeah  
Loves to hunt you down and pay ya back for the things you did  
Before you turn a positive to a negative  
Better pray before you know exactly who the fuck you're dealing with  
This is not a dance rehearsal, let me tell you kid  
Whatever you put out there is coming back again  
Years may burn (ohh)  
Tables gonna turn  
Karma's coming back around  
Either way you're gonna learn  
To give love to your neighbour, love to yourself  
It don't matter 'bout your status  
Man your health is your wealth  
We can all point a finger but there's four pointing back at yourself  
I'll be the bigger man now Give a little help

Yeah, give the love to your brother,  
Give the love to your sister,  
Give the love to your misses,  
Love to your mister  
Give the love to your friends,  
Love to your foes,  
Give the love around and back around it goes (2x)

Give the love around back around it goes  
Around it goes (2x)
