

# It's Not Right for You

## The Script

My head, my head is full of things I should've done  
My heart, my heart is heavy, here it sinks like a stone  
She said, is this the life you've been dreaming of  
Spinning half through the way from the things you love  
It's not too late, to do something new  
She said, it's not enough trying to live your life  
But not following your dreams makes you dead inside  
If you don't love what you do

It's not right, it's not right for you  
If you even have to think about it  
It's not right, it's not right for you  
If you really have to think about it  
You got one life, got much to do

My hands, my hands are scarred by things I should've done  
My feet, my feet are weary from all the miles that I've run  
She said, open your mind take a look within  
Are you happy with the world that you're living in  
If not, you gotta change what you do  
She said, and lately I don't see you smiling love  
Are you happy here with me and the things we've got  
If you can't say that it's true

It's not right, it's not right for you  
If you even have to think about it  
It's not right, it's not right for you  
If you really have to think about it  
You got one life, got much to do

If we don't do something now then  
We'll never know  
If we stay here too long then we'll, we'll never grown old  
So before it's too late and it's killing you yeah  
We've only one life to live  
So love what you do

It's not right, it's not right for you  
If you even have to think about it  
It's not right, it's not right for you  
If you really have to think about it  
You got one life, got much to do
