

Hello

The Seahorses

I know the wind and the rain
And the lightning
And the thunder's filled my brain
Have I change? I'm asking you

All I know is the sun and it's shining
Way above my cloud
So high, it can't be found
We all look around

For the times we left behind
Oh well, never mind
I'll take you there tomorrow

And I'm sorry if I seem
To always vent my spleen
It's not the path I choose to follow
So hello

And I hope you're still my friend
I think I'm on the mend
And you know I don't mean to offend
I wish we all could fly

All I know is the sun and it's shining
Way above my cloud
So high, it can't be found
