

Coastal Cities

The Secret Handshake

So turn the music down
I'm tired of talking really loud
I got just one last thing to say

Lets just drive across the country
Just drive me to the coast
Lets just drive across the country
Just drive me to the coast

Its just that
I'm sick of this
Sick of here
Sick of everyone
And everything around

Lets just start over new
Somewhere else
In the coastal city - such a view

And you wont regret a thing
Its not like something else keeping you from me
And you wont miss a thing
About this place
About today

So turn the music down
I'm tired of talking really loud
I got just one last thing to say

Lets just drive across the country
Just drive me to the coast
Lets just drive across the country
Just drive me to the coast

Lets just drive across the country
Just drive me to the coast
Lets just drive across the country
Just drive me to the coast

Lets just drive across the country

Lets just drive across the country
Just drive me to the coast...
