Everyone Knows Everyone

The Secret Handshake

I can't stand, That we're all connected. And I miss the days, When I only knew my friends. The whole world, Thinks they know all about me. But they'll miss the day, When they only knew without me. I can't stand Without seein' your Pretty faces. And I miss the days. When I was excited, About seein the new things. It seems so long ago. Now we're all, Virtually connected. And I miss the days, When I only knew my friends. I can't stand Without seein your Pretty faces. Now we're all Connected. Seems so far beyond. Seems so far. [repeat x3] Now we're all Connected. Seems so far beyond. And it's time. Yeah it's time, That we knew. We're all, it's all That I have for you. And it's time. Yeah it's time, That we knew. We're all, and it's all That I have for you. I can't stand Without seein' your Pretty faces.
