

Don't leave me baby cause you're all that I've got  
Don't try to tell me that you're something your not  
I'm just not buying if its all that I see  
But please don't tell me cause you've got to believe

Oh no don't let it be true  
Oh no don't let it be you  
Oh no don't let it be true  
Baby baby, oh baby baby

Don't leave everything behind  
Everything you've worked for  
It's all that I have got

So please don't leave me cause you're all that I see  
I'm just not trying and I've got to believe  
Please don't leave me cause you're all that I've got  
Trying to tell you that you're something you're not

Oh no, oh yah  
I've got to see you just one last time  
Oh so, oh yah  
I've got to see you just one last time

Don't leave everything behind  
Everything you've worked for, its all that I have got  
Baby don't leave everything behind  
Everything you've worked for, its all that I have got  
Baby baby don't leave everything behind  
Everything you've worked for, its all that I have got

And please don't leave me cause you're all that I've got  
And please don't tell me that you're something you're not  
I'm not staying if its all that I see  
And please don't tell me cause I've got to believe
