

# Make Up Your Mind

## The Secret Handshake

This whole thing started back  
two years ago  
It seems like everything was  
going great  
And then one day I though  
I saw a note  
It said: "Hey, it was nice meeting you,  
just give me a call"  
And everything after that  
seemed so rough  
It seemed like things were  
changing oh so quickly  
And right there before my eyes  
everything changed tonight

Girl, you wanna run around  
just gonna let me down  
just like you do  
I, don't wanna wait around  
I need to stand my ground  
and get out of town

And it was then that I knew  
we were through  
And she said something like:  
"Boy your crazy, you'll never  
ever get a girl like me"  
That's fine, it's time  
alright, I know -  
I'm doing just fine

Girl, you wanna run around  
just gonna let me down  
just like you do  
I, don't wanna wait around  
I need to stand my ground  
and get out of town

Girl, you wanna run around  
just gonna let me down  
just like you do  
I, don't wanna wait around  
I need to stand my ground  
and get out of town

It was over from the start  
Now everything is in the dark  
It was over from the start  
and nothing's changing, changing, changing  
It was over from the start  
Now everything is the dark  
And nothing's changing, changing, changing

Girl, you wanna run around  
just gonna let me down  
just like you do  
I, don't wanna wait around

I need to stand my ground  
and get out of town

Girl, you wanna run around  
just gonna let me down  
just like you do  
I, don't wanna wait around  
I need to stand my ground  
and get out of town
