

## Out Of The Question

The Seeds

You ask me, pretty baby, to forget your sin  
You ask me, pretty baby, let you come back in  
Well I've heard you crying all night and day

It's out of the question, oh yeah  
It's out of the question, oh yeah  
It's out of the question

I don't need a ball to see  
There's pain and there's heartaches heading for me  
A'just like before it come to pass  
A love like yours can never last  
So cut it, girl, well this is the end  
You know my love just won't bend

It tears my heart out deep inside  
Without your love, I want to die  
Without your love, I can't go on  
You know no man is that strong  
Well, don't let me see you face  
Don't let me remember the place  
Don't let me heary your name  
You know I'm going insane  
Pretty baby, it's out of the question
