

Amazing

The Seekers

I may dream but I don't care
There's someone right for me out there
I've got a lot of love to share
And love will lead me on

I've made mistakes now once or twice
I've listened to some good advice
You take your chance and roll the dice
It's all a lesson learned

It's amazing it's amazing
I spend my life stargazing
All this time I've been saving
This amazing love for you

I've pictured you a thousand times
I paint your portrait in my mind
I know that things will work out fine
When we meet that fateful day

It's amazing it's amazing
I spend my life stargazing
All this time I've been saving
This amazing love for you

I feel the future falling into line
And I know it's getting closer all the time

I feel the future falling into line falling into line
I know it's getting closer all the time

It's amazing it's amazing
I spend my life stargazing
All this time I've been saving
This amazing love for you

It's amazing it's amazing
I spend my life stargazing
All this time I've been saving
This amazing love for you
This amazing love for you
