

Gotta Love Someone

The Seekers

You can hear them singing on the street
You've gotta love someone
If you want to dance with happy feet
You've gotta love someone

Don't need anyone to tell you how
There never was a better time than now
Cause we all know what makes the world go round
You've gotta love someone

I am in heaven
All of the seven
Days of the week
With you having fun
My heart's on fire
I am inspired
Love takes you higher
When you truly love someone

If you want to steal his heart away
You've gotta love someone
If you can't live without her one more day
You know you love someone

I've got a secret to reveal
It's got me spinning like a spinning wheel
So if you want to know just how it feels
You've gotta love someone

I am in heaven
All of the seven
Days of the week
With you having fun
My heart's on fire
I am inspired
Love takes you higher
When you truly love someone

I am in heaven
All of the seven
Days of the week
With you having fun
My heart's on fire
I am inspired
Love takes you higher
When you truly love someone

I am in heaven
All of the seven
Days of the week
With you having fun
My heart's on fire
I am inspired

Love takes you higher
When you truly love someone
Love takes you higher

When you truly love someone
