

The Circle Of Love

The Seekers

I've come around I've finally started learning
That love was always somewhere in my heart
'Cause through my life this crazy world kept turning
'Round and 'round until I found it right here where you are

The circle of love never will end
It might roll away but it comes 'round again
Like a turn of a heart down a road that is true
My circle of love rolled around to you

You held my heart so careful not to break it
Taking me for what I really am
You changed my world and now I know you make it
A little better everyday in every way you can

'Cause you believed that love was alive
We found the way you and I

The circle of love never will end
It might roll away but it comes 'round again
Like a turn of a heart down a road that is true
My circle of love rolled around to you

'Cause you believed that love was alive
We found the way you and I

The circle of love never will end
It might roll away but it comes 'round again
Like a turn of a heart down a road that is true
My circle of love rolled around to you

The circle of love never will end
The circle of love never will end
The circle of love never will end
The circle of love never will end
