

Walk With Me

The Seekers

Walk with me through the long and lonely night
Walk with me and my world is filled with light
Here I stand feeling lost and so alone
Take my hand don't desert me now
Please don't hurt me now
If you walk with me though' I know the road is long
I'll get by with your love to make me strong
More by far than a guiding star above
I long for you
Walk with me oh my love

Somewhere the sunbirds fly
In a clear blue sky
Only you and I there together
Love me now and for ever

Walk with me through the long and lonely night
Walk with me and my world is filled with light
Here I stand feeling lost and so alone
Take my hand don't desert me now
Please don't hurt me now
If you walk with me though' I know the road is long
I'll get by with your love to make me strong
More by far than a guiding star above
I long for you
Walk with me oh my love
I long for you
Walk with me oh my love

Somewhere the sunbirds fly
In a clear blue sky
Only you and I there together
Love me now and for ever
