

Everything Goes For Believers

The September When

A better light is what we need
So we can see the road we're walking
When the storm breaks
On a dark night
And better friends are what we need
Someone who we can trust is following
In the good times
In the bad times
Chorus:
Is this the best we can get?
I should have turned to the matter myself
Is this the best we can get
We got no chance
We got no chance
It's all packed, it all seems ready now
Everything goes for believers
We have a great plan
Now we need the good gear
