

## When I Drive

The September When

Sometimes when the pressure  
Gets too hard for me  
And the rain pours on my head  
My feet won't walk me  
And my eyes won't see  
And my coat is soaking wet  
But when I drive  
My car so independently alive  
When I drive  
Look out here I come  
Speeding through the night  
Chorus:  
I could never never feel more free  
And there ain't no speed  
That can scare me  
Saturday night I follow the motorway lights  
I'll get there in the end  
The click clacking of machinery  
Tends to hold you mesmerised  
I do believe that I have  
Found a way  
Through the chaos  
& the lies  
It's when I drive  
My car silhouetted by the pale moonlight  
When I drive  
Look out here I come speeding  
Through the cold winter night  
Chorus
