

Is Your Dream Worth Dying For?

The Sheepdogs

Well I didn't have the stray for so long
And I've really been away for so long
And you didn't have to grab on so strong
Darling so

Is your dream worth dying for
Is your dream worth dying for
Is your dream worth dying for ooo ooo ooo
Head over heels got to find the right wheels to get away (won't
you get outta my brain)
Come on come on get outta my head
Won't you find some other soul who's dead ea ead

I can't get to where I'm flying in so long
You can't keep me coming back to this hold on
Good for me to find out how long
Darling so
Is your dream worth dying for
Is your dream worth dying for
Is your dream worth dying for ooo ooo ooo

Head over heels got to find the right wheels to get away (won't
you get outta my brain)
Come on come on get outta my head
Won't you find some other soul who's dead ea ead

Every step forward I take two steps back
I'm just trying to get to something but I'm stuck on this track
Every step forward I take two steps back
You ain't givin me nothing you got me all outta whack

Well I didn't have the stray for so long
And I've really been away for so long
And you didn't have to grab on so strong
Darling so

Is your dream worth dying for
Is your dream worth dying for
Is your dream worth dying for ooo ooo ooo
