

## Learn & Burn

## The Sheepdogs

Well can't keep looking backwards  
There's a lot for me to learn  
And I'm looking forward overly  
There's a lot for me to burn  
There's a one outside the window  
There's a lot for me to learn  
Hear less than half of what I see  
There's a lot for me to burn

All these small talk conversations  
There's a lot for me to learn  
And Facebook Invitations  
There's a lot for me to burn  
All the mystery is over  
There's a lot for me to learn  
But I keep coming up empty handed baby  
There's a lot for me to burn

Well they come in greater numbers  
There's a lot for me to learn  
They enjoy the mediocre  
There's a lot for me to burn  
I try to stick my piece in the air  
There's a lot for me to learn  
But I keep coming up ended handed baby  
There's a lot for me to burn

I came up to a shadowy figure  
There's a lot for me to learn  
Who tried to treat me to all the secrets  
There's a lot for me to burn  
Yeah, I said that way is not for me  
There's a lot for me to learn  
I guess I'll languish right here in obscurity  
There's a lot for me to burn

Well can't keep looking backwards  
There's a lot for me to learn  
And I'm looking forward overly  
There's a lot for me to burn  
There's a one outside the window  
There's a lot for me to learn  
I guess I'll languish right here in obscurity
