

Take a Trip

The Sheepdogs

Well, told you 'bout my plans
I'm going driving in my car
I ended up quitting
'fore I got too very far
Been working on my music
And I'm working real hard
Well, find with me with my feet up
Hanging back out in my yard

I've been travelin'
All night long
Whisper sweetly
Sing my song
Lazy, lazy
Is on my mind
I keep taking this trip
As far as I can find

Some people call it living
But it's tearing me apart
Working for the music man
Is breaking up my heart
I try to take it easy
But I got too much to do
I've been around the world
But I prefer right next to you

I've been travelin'
All night long
Whisper sweetly
Sing my song
Lazy, lazy
Is on my mind
I keep taking this trip
As far away as I can find
