

Tonight

The Sheepdogs

I can't always try to be cool
Cause I'm fed as fast as day turns to night ..
If I could walk one minute with you
Well then I'd be alright

Everything so clear, I see through
I see wrong making room for the right
But I can't see the colours of you
I see in black and white

I got a feeling that I can't understand
I go numb, at the touch of your hand
You got me looking for something new
But tonight, I'm feeling all on the line

I trip across the floor, back to you
Might as well, packed it in for the night
You can't find me when you needed help
You know I'm out of sight

Let's let our evil hang through
It's black, even under the light
You know I'd never do you harm
But then again I might

I got a feeling that I can't understand
I go numb, at the touch of your hand
You got me looking for something new
But tonight, I'm feeling all on the line

With you, with you tonight
With you, with you tonight
With you, with you tonight
With you, with you tonight
