

Sideways

The Sheila Divine

You can bless me
And tell me that i'm good
Or just arrest me
And charge me with the truth

But when you guard me
Could you keep me from my own
And if you're leaving
Could you burn me with your oath

Sideways and all directions
I can see if in my own reflection
Sideways and all directions

Well you confine me
And lock me from myself
And when you lead me
Its back into my shell

Sideways and all directions
I can see if in my own reflection
Sideways and all directions
I feel like there's no protection

There's no feeling
There's just coldness
There's no feeling
I feel soulless
