

# Cherry Hearts

The Shins

You're not wanting anybody wants in you  
I've got to understand  
But I've been biting all my cherry hearts in two  
You don't even care

Won't you ever come down from the big rock I found you climbing  
Stowing your diamonds away

You kissed me once  
When we were drunk  
It left me spinning on my heels  
Call the devil for the deal

You kissed me once  
When we were drunk  
My head went moving along the floor  
Past the window, out the door

Once I said it I knew I wouldn't regret it too  
It's just too much to share  
Now you're thinking of sailing into the night  
To the boy who wasn't there

I'm a practical guy  
Sometimes I do fly off the handle  
Thinking in scandalish ways, I've never done time  
But I've done the crime of wanting  
Something that never could stay

You kissed me once  
When we were drunk  
It left me spinning on my heels  
Call the devil for the deal

You kissed me once  
When we were drunk  
And now I'm nervous when we meet  
I got nothing under my feet

You kissed me once  
While we were drunk  
It left me spinning on my heels  
Called the devil for the deal

You kissed me once  
When we were drunk  
My head went moving along the floor  
Past the window, out the door
