

Shades Of Blue

The Shirelles

Baby, is there a world without you?
What could there be without you?
For every time it seems you're gone
Somewhere you've been sighted
The more you hold me tight
The less I want to go to sleep
There's a world of sorrow, want no tomorrow
Oh what would I be whenever I'm left without you?
Shades of blue, shades of blue

Baby, is there a world without you?
What could there be without you?
You know, there's something about the things you do
Oh something about the things you say
'Cause I've been missing you
Lonely boy, you know oh oh
There's a world of sorrow, want no tomorrow
Oh what would I be whenever I'm left without you?
Shades of blue, shades of blue, shades of blue

Baby, baby
