

## Stop The Music

The Shirelles

Who does she think she is, coming to my party,  
Then trying to dance every dance with my guy?  
While the lights are still dim  
She's making time with him  
And I don't like the look that I see in her eyes.  
I'm gonna go over there and  
When this record ends  
I'm gonna stop the music if they dance again.

It's kinda quiet now  
The last song has ended and another song is starting,  
Starting to play.  
She's walking across the floor  
Straight into his arms once more.  
I'm gonna put a stop to this thing right away.  
I'm gonna go over there and  
I can't take it no more  
So turn on the lights,  
The partys over for tonight  
You hear what I say, now?  
So turn on the lights, the partys over.
