

## Dave's Friend

The Slackers

Not your enemy  
I'm a friend that you need  
Not your enemy  
I'm a friend that you need

It was never my intention  
To drive you away  
You choose your direction  
Where you would not say  
And I hear that things are ending  
And you're hiding from me  
You think that I sold you out  
That's in your mind  
That's in your mind

It may be a long time  
Ooh a long time indeed  
I may not be a friend you want  
But I'm a friend that you need

Now you think that I've forgotten  
When you helped me out  
I was down on my race  
And you pulled me out  
Where I was living  
From the street at the end  
Don't think I forgot all that  
Do ya?  
Do ya my friend?

It may be a long time  
Ooh a long time indeed  
I may not be a friend you want  
But I'm a friend that you need

It may be a long time  
Ooh a long time indeed  
I may not be a friend you want  
But I'm a friend that you need

I hear you've been hanging at those old-time places  
that we know you shouldn't go  
Seeing all your old-time friends that I know you  
shouldn't know  
Where did you think this life is  
Where did you think this life...  
Where did you think this life is  
Is gonna go?

So call me up some time  
When you're done with your... Cocaine and speed  
I may not be a friend you want  
But I'm a friend that you...  
I'm a friend that you need
