

verybody wanna say too tough  
'Cause every word I say, I say too rough  
And every day I wanna give you love  
Everybody wants to love someone

Better take easy  
The ground is soft  
Better step easy  
You might be lost  
Better step easy  
Time is short

Everybody wants to sing some song  
But nobody wants to say they're wrong  
And I've done it, it just can't be helped  
Before you love someone, please love yourself

Better take easy  
The ground is soft  
Better step easy  
You might be lost  
Better step easy  
Time is short

Everybody wants to say it  
They ain't (???) you play it  
Even though they know they're not  
You better be thankful...

Every day I (???) sleeping at all  
A chance of love when every time I call  
I tell myself that it just can't be helped  
Before you love someone, please love yourself

Better take easy  
The ground is soft  
Better step easy  
You might be lost  
Better step easy  
Time is short

Time is short  
Better step easy  
Ground is soft  
You might be lost

Better take easy  
The ground is soft  
Better step easy  
You might be lost  
Better step easy  
Time is short
