

# No More Crying

The Slackers

There'll be no more crying... Girl  
There'll ne no more crying

Seh, is there no motion  
Inside you ocean  
There is no reason  
To cause a storm in your peaceful harbour now

There'll be no more crying... Girl  
There'll be no more crying

Seh, feelings may wind you  
Don't let them find you  
Don't look behind you  
Lest there be another... (???)

There'll be no more crying... Girl  
There'll ne no more crying

I said, Please dry your tear now  
Springtime is here now  
No need to fear now  
All my windows so cold and lonesome

There'll be no more crying... Girl  
There'll be no more crying  
I said there'll be no more crying  
I beg you please, I beg you please,  
I beg you please dry your tear now  
There'll be no more crying  
There'll be no more crying
