

Treat Me Good

The Slackers

Treat me good
And I'll treat you better than you ever had before
Treat me good
And I'll treat you better than you ever had before
Treat me right
And you'll be alright be me
Treat me right
And you'll be alright be me
Any day, or any night

You come 'round my house
But I won't let you in
You can play with my head
But I won't let you play with my mind

My mind is open
But my soul is boundless
My time may be cheap
But my space is precious

Any day, or any night

(Tell me what you say) x4

Any day, or any night
