

Watch This

The Slackers

I said man you better watch this
She's gonna make a take down
She's gonna make you do right
She's gonna make you stay 'round

I said man you better watch this
She's gonna make you do right
She's gonna keep you inside
Make you stay around all night

When you wanna be free
As free as a bird in the trees
And you wanna be free
As free as you wanna be

Now a bee in a birds nest never made no honey
And a bird in a hive sang no song
God makes the man, man makes the money
So who am I, who am I to judge?

Watch it, watch it, watch it, watch it x4

I said man you better watch this
She's gonna make you do right,
She's gonna keep you inside
Make you stay around all night
When you wanna be free
As free as a bird in the breeze
And you wanna be free
As free as you wanna be

Now I cry but I can't complain
I supply my own ball and chain
And I'm tied tighter than the races
So who am I, who am I to judge?

Watch it, watch it, watch it, watch it x4
