

## Get A Life

## The Slapdash

Don't you blame me  
Look to yourself first  
A creation fades  
You bite the hand that feeds you  
And spit in my face

Give up on yourself  
Give up on yourself and all  
Give up on yourself

If I cannot help you  
Then which way will you turn  
I've offered you my open hand  
I'm the only bridge that you have not burned

Losing control  
You are  
Losing control  
Over something you've never had  
So get yourself a ... life

Don't you  
Come fucking look to me  
Cause you're in need  
You've stabbed the ones  
That truly did believe in you  
Just to watch 'em bleed

Give up on yourself  
Give up on yourself and all  
Give up on yourself

If I cannot help you  
Losing control  
You are  
Losing control  
Over something you've never had  
So get yourself a ... life  
Control, something you've never had  
Controlled, So get a fucking life

No wonder  
That you look as half-past dead  
Hypodermic scars  
You've turned into a shadow figure  
The poisons left its mark

Losing control  
You are  
Get a fucking life  
Bitch
